

1Password Play Store Description

1Password: the password manager that's as beautiful and simple as it is secure. Simply add your passwords, and let 1Password do the rest. Try 1Password free for 30 days, then keep going with a subscription.

Selected by Android Central as the Best Password Manager for Android: "For those who want the absolute best password manager for their phone, tablet, and computers, 1Password is the way to go."

PUT PASSWORDS IN THEIR PLACE

1Password remembers all your passwords for you, and keeps them safe and secure behind the one password that only you know.

- Use the new Strong Password Generator to create random passwords, memorable passwords, or PIN codes
- Autofill passwords, usernames and email addresses into websites and apps
- Access your information on all your mobile devices and computers
- Share passwords securely with your family or company
- Unlock with a single tap using Fingerprint Unlock
- Use text selection to copy text while viewing your Secure Notes

GET ORGANIZED

1Password is more than just a password keeper: it's the ideal place for financial information, personal documentation, or anything you need to keep secure and accessible.

- Store information in more than a dozen categories: logins, credit cards, addresses, notes, bank accounts, driver licenses, passports, and more
- Create multiple vaults to keep different areas of your life separate
- Organize your information with favorites
- Create new Document items by uploading files directly from 1Password on your Android device
- Use search to find and filter your information
- Add custom address fields to any of the items in your vaults

STAY SAFE

Everything you store in 1Password is protected by a Master Password that only you know. 1Password uses end-to-end encryption, so your data is only ever decrypted offline. The encryption keys never leave your device, and you are the only one who can see your passwords.

- Unlock the app quickly and securely with Fingerprint Unlock
- Lock the app automatically to ensure your data is protected, even if your device is lost or stolen
- Get alerted by Watchtower when websites have been compromised, passwords are vulnerable, and more

SHARE WITH TEAMS AND FAMILIES

1Password for Android has full support for team and family accounts. It's never been so easy to share the simple security of 1Password with those you work and live with.

- Add all your accounts – family, team, individual – and see all your information in one place
- Easily migrate information between accounts
- Share passwords and more with teammates and family members

TRY FREE

Get a 30-day free trial when you install 1Password, and subscribe at any time on [1Password.com](https://1password.com).

Your subscription lets you use 1Password everywhere. Your password vaults sync securely and automatically between your devices, and can also be accessed on the web. Learn more at <https://1password.com>.

LOVED AND USED BY MILLIONS

1Password has been highlighted in The New York Times, GQ, The Wall Street Journal, Forbes, The Verge, Ars Technica, Mashable, and The Guardian.

- Featured on NBC's Today Show: Coolest must-have phone apps of 2017!
- Named One of The World's Greatest 100 Apps by Business Insider

We're proud of this recognition, and we're even happier that millions of people love and use 1Password every day.
