

1Password 7 App Store Description

Welcome to 1Password 7.0, the greatest password manager ever created. 1Password remembers all your passwords for you, and keeps them safe and secure behind the one password that only you know. Sign up for a 1Password membership and try it free for 30 days.

Put Passwords In Their Place

- Create strong, unique passwords for all your online accounts
- Fill usernames, passwords, credit card numbers, and addresses into websites right from your browser
- Access your information on all your mobile devices and computers
- Share passwords securely with your family or team
- Unlock with a touch using Touch ID

Stay Safer With Watchtower

- Be notified when your information has been exposed on a compromised website
- haveibeenpwned.com integration identifies passwords known to have been leaked on the internet
- Discover websites where you've reused the same password so you can make them strong and unique
- Find accounts that support two-factor authentication to enable another layer of security

Get Organized

1Password is for more than just passwords: it's the ideal place for financial information, personal documentation, or anything you need to keep secure and accessible.

- Store information in more than a dozen categories: logins, credit cards, addresses, notes, bank accounts, driver licenses, passports, and more
- Organize your information with tags and favorites
- Quickly look up passwords in your menu bar using 1Password mini
- Use advanced search to find and filter your information
- Create multiple vaults to keep different areas of your life separate
- Upload secure documents and view them from anywhere
- Add custom fields to your items to store security questions, extra URLs, and any other information you can think of

Built For Families And Teams

1Password has full support for family and team accounts. It's never been so easy to share the simple security of 1Password with your family or teammates.

- Add all your accounts — family, team, business, and individual — to see all your information in one place
- Easily move information between accounts
- Share secrets securely with your family or team

1Password never prompts you for a review because we value your workflow too much to interrupt it. If you feel generous and have a couple of minutes, please leave a review. It makes a huge difference to us. Thank you in advance. :)

The Nitty Gritty Fine Print

- 1Password can be used in read-only mode without an active 1Password membership. Full access can be enabled with an in-app purchase.
- 1Password.com is a monthly service that costs \$3.99 for individuals or \$6.99 for a family of 5 (prices vary by region). Payment will be charged to iTunes Account at confirmation of purchase and auto-renews at the same price unless disabled in iTunes Account Settings at least 24 hours before the end of the current period. Your subscription can be managed in your iTunes Account Settings. No cancellation of the current subscription is allowed during the active subscription period.
